WORKING GROUP ON RESEARCH AREAS AND ENVIRONMENTS

Join the IN.TUNE alliance in strengthening our research dimension! This opportunity allows for international collaboration, sharing of expertise, and driving innovative research initiatives. Apply by July 31, 2024, to be part of this dynamic group.

The European Universities Alliance IN.TUNE is looking for members for its Working group Research Areas and Environments. The work period of this group will be from mid-September 2024 until the end of 2027.

Eight persons altogether will be recruited for this working group, one from each partner institution.

This group will be working with:

- an inventory and comparative analysis of research
- identifying research areas for further cooperation and joint research
- setting up a knowledge hub
- curating content for a conference
- contributing to the formulation of IN.TUNE research position paper

The working group will work together with the Work package 4 committee members.

We are looking for candidates from the academic staff with scientific or artistic research responsibilities, research leaders who are in contact with the broad scope of research activities of their institution, research administrators or specialists.

Additional information:

IN.TUNE Institutional alliance manager, professor Ivana Perkovic ivanabperkovic@gmail.com

IN.TUNE Work package 4 member, professor Dejan Subotic dekisubo@gmail.com
